
Title: Tenets of the Conclave

Author: Lord Thrax

UNIFYING PURPOSE

That which unites us, despite our chaotic and diverse beliefs, traditions, and all other interests, is the complete, utter, and final eradication of any and all virtues, codes, laws, tenets, philosophies, and any other belief or teaching, that stands in opposition to the Great Truth that only in disorder, destruction, and ultimately total annihilation of all material things is Reality to be experienced.

Thus any and all who stand for the opposite of the Great Truth are our avowed enemies, whose voices should be quelled by any means necessary.

For they speak lies that deceive the masses who foolishly believe that an ordered material existence is reality.

All those, therefore, of whatever race, who resist our will and teaching must be slain, beaten into submission, until they acknowledge the Great Truth.

ULTIMATE GOALS

Although the individual and varied goals of each group, clan, tribe, or religion of darkness may differ, the one goal is that, for us to succeed in spreading the Great

Truth across the land, we must obtain bases of power. These bases, be they village, town, or city, will form the hub of knowledge and attack by which we shall overcome the disorganized and bickering forces that oppose us.

The second goal is to instruct the masses in the paths of the Great Truth, to divert attention upon the falsehoods and lies of Order.

The third goal is to recruit those who shall serve willingly and eagerly within our ranks until, by sheer numbers, we overwhelm those who oppose us.

The fourth goal is to ensure that all those who fight for our cause are properly instructed, equipped, and otherwise prepared for war and conquest.

THE GREAT SIN

For us to succeed, we must remain united! There can be no divisions or schisms within us. We must learn to accept the varied, unusual, or sometimes even repulsive ways or beliefs of one another, realizing that our greatest possible enemy is ourselves. Order often capitalizes on this in us! The time is past that they should reap easy victories over us because we are unable to remain united in our purpose for long. Let nothing, no individual or incident, keep us from maintaining that only rule of Order worth emulating... loyalty to one

another and our Great
Cause!

Failing this, we are
doomed, and Order will
stand exalted over the
corpse of our Cause.
